Subject: [External] Dominion Energy Rate Hikes

Are you Kidd me...WTF!! It's one thing to do a rate hike of one to maybe 3% but to do it at seven or 7.5% is insane that's just not right especially since I know people that work for the company and I see how much they're getting paid and they don't work very hard...Gimme a break! One to 3% is OK over five is not OK over seven is definitely not OK and that's my input for what's it's worth. When you have a monopoly and people have no other place to go to get electricity you can do what you want but that doesn't make it right that makes it wrong to raise it that much in one year especially with people coming off of a disaster is 2020 and money is tight for a lot of people it's just not right you should raise it at all until maybe 2022! Give people a break
